

URGES "THOUGHT WAVES" OF PEACE TO END WORLD WAR

LOS ANGELES, Aug. 31.—Mrs. Charles Frederick Joy, widow of a former Congressman from Missouri, believes that a universal optimism expressed in thought will do much to inspire the boys going to war and that a concordance of "thought" for peace will bring the war to an end. She says:

"I am one of a multitude who feel that every human being in America should work for conquest and peace. It is an established fact that in the air are heat waves and waves of cold. So, too, there are waves of crime of different kinds; waves of suicide, robbery, murder.

"Then, there are waves of religious excitement. Thought arises, meets and mingles with its like, making waves which sweep over and through minds attuned to receive it. It is not the subtle influence of one man's strong thought felt throughout an entire city, even when he is silent? "A man may be illiterate, yet he can send from his mind a potent force. Even a child may think 'peace, harmony,' and swell the waves. Mothers should be told that thoughts of fear and anxiety tend to weaken their boys, for thoughts govern and shape our lives. At present thoughts of fear, of disaster, are clouding those of peace. The stay-at-homes who desire peace mingle their thoughts with fear. Each young man's enthusiasm is dampened by his family's fears. "Thought, though unseen, is like a current of electricity which could be made so strong and vibrant with

New Cinderella With Cork Limb Stumps Detectives

TOLEDO, Ohio, Aug. 31.—Page Sherlock Holmes. Toledo detectives are stumped. Officials of the Toledo Artificial Limb Company, on Tuesday reported the theft of a woman's artificial—ah—limb.

But detectives say they can't go about looking for the thing as they would for a stolen coat.

Even if they saw a woman who limped it wouldn't be proper to ask her to show her—aw, what's the use, say these detectives.

Such a light that no power on earth could resist it. "I suggest that we organize, control and direct the thought of the many and create a volume, a powerful wave—set all the people thinking one way as one mind.

"Just realize what a powerful wave could be created when thousands are thinking, desiring, victorious peace! As each individual thought of peace rises and joins others filled with desire and faith, a tremendous force will be developed and carried where it is sent.

"People should be organized into groups—families, business offices, churches, schools. Any one, though he may not understand this theory can think, and thinking will bring understanding. You will find, I am sure, that all our stay-at-home women and men are eager to work for peace and peace. All they require is guidance.

"Every American of reasoning age should be requested to give at least half an hour a day to thinking 'peace' to the world. Let us awaken the nation to the idea of a great, forcible wave of thought, creating such spiritual power that the brute force in humanity will be conquered.

ARMY OFFICER'S TRIPLE ROLE IS PUZZLE TO POLICE

ATLANTIC CITY, Aug. 31.—Whether an army officer who has been arrested in a beach front hotel by Detectives Scanlin and Eckstein is Capt. Thomas Ryan, of Fort Benjamin Harrison; Capt. George Hann, of New Haven, or Second Lieut. John S. Kaiser, of the Department of the Lakes, is a problem which the local police have not yet been able to solve. In the effects of the army officer when he was taken into custody upon request of Inspector Faurot, of New York, on the charge of grand larceny, were found documents tending to show that he was either of the three soldiers mentioned. He insists that he is Second Lieutenant Kaiser, and that he is attached as flying officer to the Signal Corps of the Department of the Lakes.

Kaiser was in civilian attire when arrested, and in his luggage were found two uniforms of the rank of captain. In his possession also were three flying machines. He insists that the names of Captain Ryan, Captain Hann and Second Lieutenant Kaiser, issued by banks at St. Louis, New Haven, and Chicago. The police also found a report transmitted by Kaiser to the chief signal officer of the Department of the Lakes, containing information regarding the condition of army flying machines at Memphis, Tenn. This report, written early in August, sets forth that Lieutenant Kaiser is to sail for France with a Canadian regiment on August 10, and requests his transportation be forwarded from Memphis to a Canadian port.

The prisoner is thirty-three years old, of athletic build and deeply bronzed from exposure to the sun. He confided to the police after his arrest that he is an expert in aviation. The nature of the offense for which he is wanted in New York has not been divulged, but the local police believe that it has to do with the passing of worthless checks.

PREMIER UPHELD IN CABINET CRISIS

SIR ROBERT BORDEN.

The premier of Canada offered his resignation to a caucus of his supporters in Parliament in favor of Sir George Foster, minister of trade and commerce. The caucus declined to accept the resignation. It reaffirmed its confidence in the premier's leadership. "Sir Robert was authorized to continue his efforts to organize the government and bring into it representatives of all the elements in Canada favoring compulsory military service.

SUES MARRIED MAN FOR BROKEN TROTH

STAMFORD, Conn., Aug. 31.—Miss Adelaide Dobos, of New Rochelle, has filed action here for \$40,000 against Max J. Fuchs, wealthy director of a big bronze factory, alleging breach of promise to marry.

Miss Dobos was the attractive housekeeper in the Fuchs home here for several years. In her complaint she states that while Fuchs was living, apparently happy, with his wife and daughter, he proposed, saying he would obtain a divorce and then make her his wife.

Service of the papers in Miss Dobos' action was by publication, as Fuchs has been absent from the city several months. Mrs. Fuchs, who has retained counsel, refused to discuss the action against her husband.

Fuchs, who is said to be a German subject, owns much property in Stamford. He is credited with having made large profits in the bronze manufacturing business since the beginning of the war.

SEEK SUSPECT'S DOUBLE IN AUTO HOLD-UP CASE

COUNCIL BLUFFS, Iowa, Aug. 31.—W. E. Beckwith, transfer foreman for the Illinois Central railroad, after a hearing, was released from the charge of having held up two parties of automobilists near the city limits ten days ago.

The case developed into one of the most remarkable ever heard in police court. Four of five witnesses who testified for the State positively identified Beckwith as the man who held them up, and more than that number of people testified that at the time of the hold-up Beckwith was a member of a card party being given in a private home.

Police think the highwayman is a double of Beckwith.

ICE SERVICE PROTEST FAILS. That the Public Utilities Commission has no jurisdiction over the ice companies, was the statement today of W. C. Allen, executive officer, in reference to a complaint filed by the Northeast Washington Citizens' Association against the shortage of ice.

"The ice companies are not public utilities within the meaning of the law," he said, "and are not subject to the supervision of the commission." The complaint was filed by Roscoe Jenkins, chairman of the committee on public utilities of the citizens' association.

USES PALMISTRY AS AID IN DUPING TRUSTING WOMAN

SPOKANE, Aug. 31.—Apparently feeling that circus life did not furnish sufficient remuneration, Harry W. Sykes, fortune teller for the Campbell show, tried to pick up extra money by teaching the occult art privately. At least it is charged he tried to do so in the case of Mrs. Carrie Brookbank, of Litchfield.

Mrs. Brookbank came to Springfield to attend the Campbell show and became greatly interested in the art of fortune telling. Sykes persuaded her to sign a contract with him whereby she was to receive instruction in the art of palmistry, concentration, clairvoyance and the inner occult secrets which are not printed in any books. For this she was to give him \$50.

Sykes, according to Mrs. Brookbank, gave her several lectures, and at the same time made love to her and succeeded in getting \$25 from her. He also inquired after her husband and asked how much life insurance he carried. When he learned that her husband carried several thousand dollars in life insurance, he told her that the stars had revealed to him the fact that her husband would not live long.

At this she became frightened and told her husband about Sykes. In the meantime Sykes had also become acquainted with the sister of Mrs. Brookbank and had tried to persuade her to sell a farm valued at over \$12,000, which she owned, and give him the money to invest for her.

About this time, however, he disappeared.

IS MOTHER OF 28.

CHINO, Cal., Aug. 31.—Mrs. Paul Aguilar, of this place, in a wedded life of thirty-eight years has become the mother of twenty-eight children. Mrs. Aguilar is fifty-three. She was married at fifteen. In the family there have been three sets of twins, and all of the children are living save two. Aguilar supports fourteen of his children on a wage of \$2.50 a day.

Trench Attack With Motor Gas Kills Off Moles

This is no war story. But accounts of war have taught citizens in the northwest section a thing or two. They are carrying the war right into the trenches and using gas with deadly effect.

Moles have infested lawns out near Tenleytown for years. The rodents turned long mounds across the best kept greenyards. They respected no one. But the cure has been discovered. The war helped out. The process for ridding the lawns of moles is infallible.

"We tried everything," said one of the users of the process. "We got traps, we used poison in the mounds. All to no effect. Everything failed.

"Then the idea struck us. We backed up the old jitney on the lawn, attached the garden hose to the exhaust and started the engine. We stuck the nozzle in a mound here and there. Just gasped those moles to death. No more moles now. We have good lawns."

G. O. P. IN VIRGINIA FIGHTS DEMOCRATS WITH OWN ISSUE

RICHMOND, Va., Aug. 31.—Virginia Democrats who fought for and won prohibition today faced pre-emption of their dry stronghold.

State Republicans, after yesterday nominating for governor Thomas J. Muncey, super-dry, and assaulting the dry intentions of Democratic Candidate Westmoreland Davis, one-time local prohibitionist, have launched an avowed fight to displace the Democrats from dry leadership. Meantime Democratic heads were discussing means of stemming possible desertion from their ranks of radical dries and mapping out a rigid prohibition campaign. Davis, it was believed, will accept the gantlet with flat-footed prohibition pledges.

Political experts, however, were inclined to minimize danger from Republican exploitation of the issue. Emphasis by Davis of his intentions to enforce rigidly existing dry statutes, and, if necessary, recommend additional supplemental legislation, they pointed out, was admittedly largely responsible for Davis' sweeping victory in the primaries.

CUBAN AVIATORS TO OFFER FRANCE THEIR SERVICES

HAVANA, Aug. 31.—Col. Manuel Coronado, member of the Cuban senate and editor of the newspaper La Discusion, has organized an aviation unit which will be offered to France, with complete equipment, in the near future. The "Escadrille Cubaine," as the flying unit will be called, will probably be the first body of fighting men from Cuba to serve on French soil.

Thirty-three youths, representatives of the best families of Cuba, have volunteered to take the prescribed aviation course and individually to bear the expense of their airplanes and equipment. Senator Coronado has just returned from New York, where he conferred with officials of the Aero Club of America and airplane manufacturers over the details of the escadrille's organization.

Colonel Coronado has asked the United States Navy Department for an arrangement by which the Cuban aviators may undergo their preliminary training at the navy aviation school at Pensacola, Fla.
